

Bucharest info

Apartment Bucharest with our agency Bucharest has more than 10000 accommodation places in hotel varying from one to four stars, in inns, villas and campings. Still, because of the intense commercial, financial, political activity and because of the large number of foreign investors who arrived in Romania after December 1989 revolution, Romania's capital would need about 15000 hosting places. Historical and architectural monuments, impressive palaces and buildings, churches and monasteries, statues and busts, museums and historical buildings classified as national find themselves facing new buildings like the National Theatre, the imposing construction of the International hotel or the modern construction of the Bucharest hotel complex. The old roads, the churches, the Old Court of the Ruling Prince, the modern stories like Unirea, Cocorul, Victoria, Bucharest's subway or the National Stadium with its 80 thousand places, all make great attraction points for tourists. And all these, the parks, the gardens, the lakes arranged for the pleasure of the tourists and inhabitants, all give Bucharest a unique personality. The rich forests, the lakes arranged for nautical sports and fishing in Baneasa, Snagov, Cernica, Pustnicul and other villages around the city offer the possibility of spending quality-time weekends.
